## Press Release: American Motorcycle Co. 1902 LLC

### **American Motorcycle Co. 1902 (Las Vegas, Nv)** **&** **Roxx Tec Trailers (Cresco, Iowa)** **Announce “AMC2 Custom Motorcycle Trailer(s)”** **Licensing and Distribution Agreement**

American Motorcycle Co. 1902 is proud to announce its latest partnership and licensing/distribution agreement with Roxx Tec of Cresco, Iowa. Roxx Tec and AMC1902 are in the final stages of development of a first of its kind custom motorcycle trailer program designed from the ground up to meet the demands and needs of today's motorcycle rider.

Branded the AMC2 line of Custom Motorcycle Trailers the two designs, & partnership, will be introduced at the Cincinnati V-Twin Expo. The “AMC2 Traveler” has more of a classic design and feel that will reflect any brand, or motorcycle enthusiast look and feel, while the “AMC2 Alpha Star” reflects the AMC1902 Motorcycle Mafia Creed and is designed with that edgier look and feel of today's “custom” motorcycle rider.

Key design elements focused on today's motorcycle designs, ride heights, lengths and size. The AMC2 Trailer program is a revolutionary aluminum custom motorcycle trailer design constructed for lightness, security, strength & durability. The trailer from the very beginning was developed for ease of loading today's customs. Focus was given to trailer and motorcycle security, safety and protection to protect your big dollar motorcycle investments. Then we looked for that custom look and feel that we see in the motorcycles and the trucks that haul them to create styling that set's us apart in the market.

These trailers will protect that big motorcycle investment, handle the longest choppers, lowest customs, and biggest baggers. The wider body design & its unique loading ramp design that will allow for safe loading for the lowest fat tire customs. Designs reflect that custom look and feel seen in today's motorcycles and the trucks that haul them. Unique access door design allows easy access to adjustable newly designed tie downs and wheel chocks as well as two anodized cabinets, electric control panel,

AM/FM/CD stereo, electric power, lighting, etc. Trailers are designed to be DOT compliant for both US and Canadian markets.

Roxx Tec is a newly formed custom trailer company formed by a team of the finest trailer engineers, designers, builders, and fabricators in the market today. Principals involved have over 50 years combined experience in the custom big rig and trailer markets and they have designed and built some of the finest event big rigs, race rigs, marketing big rigs, and custom trailers in the world. Roxx Tec will meet the needs of today's specialty trailer market through the vision they have created from years of custom trailer and big rig fabrication and design. If you can dream of an idea Roxx Tec can bring that dream to reality.

American Motorcycle Co. 1902 is proud to announce this wonderful new relationship w/ Roxx Tec Trailers.

AMC2 Custom Motorcycle Trailer sales will be through authorized motorcycle dealers, travel trailer dealers, luxury motor home dealers, and automotive dealers nationwide. For more information visit American Motorcycle Co. 1902 in Cincinnati in booths 2852-2855 or email us at [inquiry@amc1902.com](mailto:inquiry@amc1902.com) ...check out our website at [www.amc1902.com](http://www.amc1902.com) (trailer information will be posted as soon as all details and photos' become available.

**Standard equipment will include:** All aluminum construction for lightness. New ramp designed to accommodate the lowest motorcycles. State of the art tie down and wheel chock system to improve security and ease of loading. No visible rivets on exterior of trailer and painted shell design. Wider profile and added length handle the longest and widest of motorcycles. Extruded aluminum corners, roof rails, and floors make these the safest and strongest trailers on the road today even allowing the roof of this trailer to be walked on. Flush mount locks and door handles add to security of those expensive machines as well s the good looks of this custom trailer. Lightweight aluminum wheels, with various options available, reduce weight and heat build up while towing, and complement the custom wheels on your vehicle as well. Include is a matching interior mounted spare tire w/ aluminum wheel. AM/FM/CD player included w/ four speakers and sub woofer. Kiwi style flooring is a non-slip floor that also is easy to clean and maintain. Electric control panel manages all lighting, 12 volt & 110 Power supplies (Includes shoreline power system). Two adjustable interior aluminum cabinets w/ overhead cabinet. Electric ramp closure and jack stand systems. Electric drum braking system. Trailer is also pre-wired for air-conditioning and security systems.

**Options include:** Trailers can be ordered in various lengths, widths and heights. GPS & cellphone based security systems are available. Multiple custom wheel choices. Alternative floor materials. Additional cabinets, fold down tables and beds. Air conditioning. The anodized aluminum commercial grade canter levered awning system w/ billet hardware for durability can also ordered with custom graphics. Variety of paint color options as well as custom graphics. Optional lighting upgrades. Observation deck. And more...
